

Proposal Manager — Specification

1. Overview

The Proposal Manager allows users to create ideas, initiatives, or project proposals that can be reviewed, voted on, moderated, and scored. Admin and Editor roles can manage proposal status and handle moderation outcomes.

2. Proposal Creation

Allowed roles: Admin, Editor, Volunteer.

All can create proposals with:

- Title
- Description (Summernote HTML editor)
- Attachment(s)

Status is system-controlled:

Submitted (default), Approved, Rejected, Archived, Expired, Inappropriate.

Only Admin/Editor can update status.

3. Optional Fields

- Volunteer Requirements: numeric value
- Fund Requirements: none or amount (USD, BDT, REWARD POINTS)
- Start Date (optional)
- End Date (optional)
- Expiry Date: proposal auto-expired when date reached

4. Voting

All users (Subscribers, Volunteers, Admins, Editors) may upvote or downvote proposals.

5. AI■Powered Features

5.1 Moderation Check

AI moderation checks proposal text for harmful or inappropriate content.

If flagged:

- Proposal is marked Inappropriate
- User receives email notification with an edit/delete link

5.2 Automated Review & Scoring

AI reviews proposal in context of app mission.

Generates:

- Written automated review
- Score from 1 to 10 (10 = highly aligned)

Displayed below the proposal.
